What?

Grub Club is a cooking club! Students will have the chance to try new food, learn new recipes, apply math and measurement skills and gain experience cooking. Every session will have a different educational focus to challenge students.

Session 1- We will be traveling across the United States, learning geography, a little US history and how to make some delicious sport themed stadium food.

Session 2- This time our focus is on manners and etiquette while preparing different courses of a meal. So fancy!

Session 3- For the last session of the year we will have a wider cultural focus with different foods from around the world. Students will have a chance to share some of their favorite recipes from home too!
